Portfolio Evaluation Criteria	Score
Students will be evaluated on: Variety of Media, Portfolio Presentation, Quality, Originality, and Craftsmanship.	
<p>10-12 Points</p> <p>Portfolio Presentation: 6 to 10 art pieces that can include a variety of approaches to visual art such as drawing, painting, printmaking, sculpting and photography. Video/In-Person Activity	Score
<p>This observation is based on a 30-minute still life drawing exercise. Students will be evaluated on: Composition, line quality, realistic rendering and proportion.</p>	
<p>9-13 Points Composition/Spatial Layout: Art shows foreground, middle ground, background to create a realistic sense of depth, demonstrates excellent use of positive and negative space, demonstrates complexity in choice of view. Handling of Media, Line Quality: Artwork shows confidence in mark-making, expressive line, technical aspects strong to excellent, strong variation of line weight. Realistic rendering/Value: Work shows obvious light sources, value range from light to dark (a minimum 5-step value scale). Proportion: Objects in still life are drawn in correct proportion, accurate relationships between rendered objects.</p>	
<p>7-9 Points Composition/Spatial Layout: Artwork shows foreground, middle ground, background to create a sense of depth, demonstrates good use of positive and negative space, good choice of view. Handling of Media, Line Quality: Artwork shows some strengths in mark-making and technical skill, some variation in line weight Realistic rendering/Value: Work shows use of obvious light source, value range of light to dark but misses the highlights. Proportion: Most objects are drawn in correct proportion, with good relationships.</p>	
<p>4-6 Points Composition/Spatial Layout: Artwork shows limited sense of depth, demonstrates fair use of positive and negative space, choice of view uninteresting. Handling of Media, Line Quality: Artwork relies on outline, little expression in mark-making, technical aspects are fair. Realistic rendering/Value: Work shows a range of values but Proportion: Some proportions are accurate.</p>	
<p>1-3 Points Composition/Spatial Layout: Artwork does not show a sense of depth, poor use of positive and negative space, uninteresting choice of view. Handling of Media, Line Quality: Artwork relies on outline, little expression in mark-making, technical aspects are fair. Realistic rendering/Value: Work shows no value changes, no sense of a light source. Proportion: No sense of true proportion.</p>
